**ANTHONY CAVINESS,
MANAGER FULFILLMENT OPERATIONS,
REPLACEMENTS, LTD.**

CHALLENGE - EXPANDING CAPACITIES IN PACKAGING LOGISTICS

The US company Replacements, Ltd. specializes in the sale of delicate products – needless to say, they require a reliable protective packaging solution. This is why Replacements uses Storopack's RENATURE® loose fill to protect its packages. It is integrated into the company's logistics via silos and packing stations.

The main challenge of this integration was to increase the daily throughput hence increasing the capacities of the packaging logistics activities of Replacements, Ltd..

PERFECT PROTECTIVE PACKAGING

SOLUTION - ADDITIONAL SILOS, NEW CONTAINERS AND MORE DROPS

To reach the goal of improving the capacity the department has been equipped with two additional silos, 12 new dosing containers, and 24 additional drops. The volume of the silos was increased by nearly 13,000 cubic feet, which equals 370 cubic meters.

SUSTAINABLE SOLUTION

Replacements also sets great store by biodegradable packaging chips: “Replacements is committed to protecting our environment and sustainability, which is why we would opt for RENATURE® time and time again,” says Anthony Caviness.

The loose fill is entirely biodegradable and water-soluble, does not leave any residue behind, and guarantees reliable protection for fragile shipping goods – such as Replacements’ products.

STOROPACK - PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

ALL BASES COVERED

We at Storopack would like to offer our customers the very best, which is why we set great store by the ability to listen, comprehensive consulting, and long-term services across all sectors. Our products and solutions are tailored specifically to your requirements. We support you until you achieve the ideal results and even beyond – locally around the world.
